

LEA Content, Media and HeyGen Completion Suite Handoff

Purpose

This completion suite fills the missing London English Academy live-deployment areas: item bank, answer keys, distractors, audio prompt scripts, illustrated cards, success animations, interactive mechanics, downloadable resources, CDN/media setup, content QA and HeyGen/avatar/video integration.

Package contents

- Early Years item bank: 1900 item records across 210 activities.
- Downloadable resources: 670 resources generated in DOCX, PDF, HTML and Markdown.
- Video mapping: 75 HeyGen/LMS rows with captions and transcripts.
- Developer integration stubs included.

Production note

MP3 files and final HeyGen MP4 videos must be rendered by the selected production providers. This suite supplies scripts, SSML, captions, transcripts, metadata, URL fields and LMS integration layer.
